

# ID NOW™ STREP A 2 QUICK REFERENCE INSTRUCTIONS

## Materials Required to Run a Test:

Test Base

Sample Receiver

Transfer Cartridge

Throat Swab

## Instrument:

Test Base Holder  
Sample Receiver Holder

## CLIA COMPLEXITY: WAIVED

Refer to the ID NOW Strep A 2 Product Insert and User Manual for complete instructions.

## SPECIMEN COLLECTION and HANDLING

Use freshly collected specimens for optimal test performance. Inadequate specimen collection or improper sample handling/storage/transport may yield erroneous results.

Collect patient specimen by swabbing the posterior pharynx, tonsils and other inflamed areas. Avoid touching the tongue, cheeks and teeth with the swab.

**Note:** The QC test is run in the same manner as a Patient Test. See the other side for step by step instructions.

1 Touch 'Run QC Test';  
2 Select 'Step A' from the menu.  
3 Select the QC Test to be Run.  
4 Confirm Test

Confirm the test type to match the QC sample intended for testing by touching 'OK' and following the on screen prompts to complete testing.

External Positive and a Sterile Swab for Negative Control should be tested once with each new shipment received and once for each untrained operator.  
For QC testing, select Run QC Test on the Home screen, and follow the displayed instructions. Refer to Running a QC Test in the ID NOW Instrument User Manual for further details.

# ID NOW™ STREP A 2 QUICK REFERENCE INSTRUCTIONS

Before performing this test, refer to the ID NOW Strep A 2 Product Insert and User Manual for complete Test Procedure and additional information.

Failure to follow the instructions or modification to the test system instructions will result in the test no longer meeting the requirements for waived classification.

ID NOW Strep A 2 is for use with throat swab specimens only.

Follow the step-by-step instructions shown on the instrument screen.
