

RALS LiNK

V3.11 Patch 5 Release Notes

Contents

1. RALS LiNK System Changes	2
-----------------------------------	---

1. RALS LiNK System Changes

- 1.1 The system now supports receiving expiration dates from the devices that can send this data along with the cartridge lot information
- 1.2 Response message has been updated to more accurately describe to the end user when an unknown email address is entered when using the forgotten password workflow.
- 1.3 Stock level reports are now running as expected when scheduled. Previously, these were failing to run when scheduled.
